

#### **14. POLICY DEVELOPMENT FOR LEASES, LICENCES AND EASEMENTS OVER RESERVES AND COUNCIL OWNED OPEN SPACED LAND**

The Area Parks Officer team leader reported on the development of a standard policy for the granting of leases, licences and easements over reserves and Council owned open spaced land. The Board **decided:**

1. To support the development of a standard policy for the leasing, licencing and provision of easements over reserves and Council owned open spaced land to enable delegations to be exercised as requested by Council.
2. To agree to assist and facilitate discussion within the Burwood/Pegasus community, especially with local sports and community groups and other interested parties assisting them to become aware of the issues which need to be addressed in the formulation of a policy over the granting of leases, licences and easements over reserves and open spaced land administered by the Council.
