

22. REFUSE STATION HOURS

A recent survey of refuse station opening times has been completed by the Waste Management Unit. The survey has shown that customers do not wish to pay for the extension of hours at refuse stations. However, it seems likely that the increased flexibility of station hours may still be possible at minimum extra costs, and it is proposed that these options be discussed in details with key stakeholders, the Independent Bin Operators' Collective, Waste Management Ltd, and Works Operations staff. A report will be submitted to the Committee in April.
