

7. ILAM ROAD/AORANGI ROAD INTERSECTION – PROPOSED IMPROVEMENTS

RR 9120

Consideration was given to a report from the Area Engineer which set out proposals to redesign the layout of the intersection such that with the installation of a giveaway control against Aorangi Road and other improvements that included kerb adjustments, Ilam Road would as the collector, assume a vehicle priority over Aorangi Road being a local road.

In receiving the report, the Board **decided** that the plan be circulated for public comment.
