

**3. DEPUTATION BY APPOINTMENT
TEMPLETON RESIDENTS' ASSOCIATION**

Messrs Tony Hampton and Warren Newell addressed the Board on a proposal to enhance/upgrade the Main South/Kirk/Waterloo Roads area with a landscape plan prepared in consultation with the City Design Unit.

With the aid of photographs and a video the deputation also identified various safety issues at this busy intersection for local school children and other pedestrians. (This is being followed through with an on-site meeting).

The Association had pledged a substantial amount of funds to the project and was seeking Council/Board financial support.

In acknowledging the Association's contribution the Board **decided** to support the proposal; funding options would be considered by the Board's Finance and Policy Committee when it met to consider its 1999/00 Project Funds.
