

## **8. YOUTH OUTDOOR RECREATION FACILITY – WIGRAM**

The Community Recreation Adviser (Kate Rathbun) reported on the development of a recreation facility for youth in the Wigram Ward.

In March 1998 the Board allocated funds from its 1998/99 Project Fund for such a facility. A summary of research carried out in the Wigram Ward indicated that the Templeton community was in great need of such a facility.

The Area Parks Officer was also involved in meeting the Templeton Residents Association and local youth; the overwhelming response was for a skateboard facility on the domain.

Further community consultation is being initiated and a further report will come to the Board for consideration of the skateboard facility being placed onto Templeton Domain.

The Board **received** the information.
