

## **11. POLICY DEVELOPMENT FOR LEASES, LICENCES AND EASEMENTS OVER RESERVES AND COUNCIL OWNED OPEN SPACE LAND**

A Parks Officer reported seeking the support of all Community Boards for the development of a standard policy for the granting of leases, licenses and easements over reserve and Council owned open space land, before a report was prepared for the Parks and Recreation Committee seeking endorsement and budgetary provision.

The Board **decided:**

1. That it support the development of a standard policy for the leasing, licensing and provision of easements over reserves and Council owned open space land to enable delegations to be exercised as requested by the Council.
2. That it agree to assist and facilitate discussion within the Shirley/Papanui communities, especially with local sports and community groups and other interested parties, assisting their awareness of issues needing to be addressed in formulation of a policy for the granting of leases, licences and easements over reserve and open space land administered by the Council.
