

33. SHIRLEY INTERMEDIATE SCHOOL BASKETBALL COURTS

The Community Development Officer reported an application for funding towards the creation of two basketball courts at Shirley Intermediate School.

The principal represented the school and tabled a written application requesting \$4,000 to provide four basketball goal hoops with back-boards. He advised members that the school was keen to increase the community use of its grounds.

The Board **resolved**:

1. That this request be considered at the Special Meeting in March to allocate 1999/00 Project Funds.
2. That a joint committee be established with the Burwood/Pegasus Community Board to look at funding requests from schools close to the Boards' boundaries.
3. That the Board consider establishing guidelines for handling funding requests from schools.
