

## 5. EDIBLE FRUIT AND NUT TREES ON PARKS

The Council's "Creativity Team" had promoted a proposal to plant edible fruit and nut trees on the city's parks.

Funds were available to provide for plantings within the six Community Board areas, including the central city.

Councillor Barbara Stewart was in attendance to discuss the proposal and seek Board consideration to preferred park sites.

The Board, in accepting the proposal, **agreed** that Shand Crescent, Auburn Reserve, Arcon Reserve and Templeton Domain be the parks onto which the trees would be planted.
