

2. QUEENSBURY STREET - "GIVE WAY" SIGN AND ROAD MARKINGS

RR 9929

Officer responsible City Streets Manager	Author Malcolm Taylor, Area Engineer
Corporate Plan Output: Signals Signs and Shelters 9.5 94	

The purpose of this report is to seek Council approval for road markings on New Brighton Road at its intersection Queensbury Street. This approval falls outside the Board's delegated powers.

In response to concerns about traffic safety at the local shopping precinct on New Brighton Road, between Fleete Street and Queensbury Street, a proposal was developed to recess parking on the north side and install a pedestrian refuge island (*see attached plan*). A leaflet explaining the proposed work was distributed to residents in April 1999, and it was generally accepted. However, the proposed length of "No Stopping" lines outside the dairy at 144 New Brighton Road has been reduced due to concerns expressed by the owner at the loss of parking spaces adjacent to his business. This work is expected to be completed by the end of September 1999.

It is now appropriate to approve the installation of the "Give Way" sign and road markings.

Recommendation: That the stopping of vehicles be prohibited at any time on the south side of New Brighton Road commencing at its intersection with Fleete Street and extending in an easterly direction for a distance of 27 metres.
