

12. WADELEY ROAD

RR 10004

The Riccarton/Wigram Community Board decision to install four road humps in Wadeley Road to control speed of traffic was discussed by the Committee. The discussion focused on the desire to reduce traffic speed in Wadeley Road. Options other than that recommended to the Board were considered.

The Committee **received** the information but asked for a further report on the effect of the traffic control measures in 12 months time.
