

6. LONG-TERM URBAN DEVELOPMENT STRATEGY

RR 9946

The Committee received a report from the Environmental Policy and Planning Manager, reviewing the background and situation relating to the preparation of an urban development strategy for Christchurch and the surrounding districts.

The report was accompanied by an opinion from the Legal Services Manager recommending that the issue be further considered once all references (appeals) to the City Council's City Plan have been received.

The Committee **decided** to hold a seminar for elected members on 24 August 1999, on the implementation of a long-term urban growth development strategy.
