

7. SKATEBOARDING, IN-LINE SKATING, AND FREESTYLE CYCLING STRATEGY

An officer steering group has been established to oversee the preparation of this strategy.

The key objective of the proposed strategy is to identify suitable sites and funding for the provision of these activities within the city.

Once a draft strategy has been prepared it would then be received by the community boards and the Parks and Recreation Committee for comment.

The Board was supportive of this initiative, and **received** the report.
