

9. ST ALBANS PARK SKATEBOARD RAMP

The Community Secretary reported that a consultation meeting had been held on 25 May with local residents and park users regarding the trial of a skateboard ramp on St Albans Park. The St Albans Facilitator, Doris McLennan, was granted speaking rights and informed members that residents now feel they have been heard and that they were happy for the Board to go ahead with installing a permanent facility on the park. Those residents who had expressed concerns were now satisfied with the idea. The Board **decided** that a questionnaire of residents' views still be carried out since this had been promised and that the results be reported to the 30 June meeting for a final Board decision.
