

13. ITEM DEFERRED

The Committee **deferred** the following report:

13.1 **Review of Aspects of External Communication**

RR 9289

The External Communication Subcommittee reported back recommending that a new logo and slogan specific to the Christchurch City Council be adopted.

The proposal to replace the present slogan was generally not supported by the Committee with most Councillors expressing their disappointment that reference to the Garden City had not been retained in the slogan.

The Committee **referred** the report back to the External Communication Subcommittee for reconsideration.
