

## 6. CASINO AIRBRIDGE

RR 9885

A report from the Environmental Policy and Planning Manager drew attention to a request by the Christchurch Casino to lease air space over Peterborough Street.

It was **decided** that officers report on the issues involved in leasing air space over public streets and the principles on which a Council policy on the matter could be based.

It was noted that a report by the Property Projects Manager on the leasing of air space over Peterborough Street had been withdrawn from the Strategy and Resources and Environment Committee agendas.
