

## 12. ARBOR DAY

RR 9764

Details of the intended Arbor Day programme for this year were elaborated on in a report from the Environmental Policy and Planning Unit.

The emphasis of the programme was based around schools and funding assistance from the Board was sought for this initiative.

The Board **decided**:

1. That the Arbor Day programme be supported.
2. That the matter of Board funding to provide for trees for Arbor Day plantings at schools in the Board's area be referred to the Finance and Planning Committee for further consideration and report back.
3. That should any such funding be supported, it be put towards providing exotic trees only.
