

**20. CONDELL AVENUE –  
PROPOSED MULCHING AROUND STREET TREES**

RR 9761

The Board's approval was sought to undertake the mulching, planting and boxing around the base of street trees in the roadside verge on the south-west side of Condell Avenue between Blighs Road and Matsons Avenue.

The report noted that in addition to the \$4,000 already available for the project an additional amount of \$900 was required to fully complete the work.

The Board **resolved** as follows:

1. That the boxing, mulching, and planting of ground cover under the street trees on the south-west side of Condell Avenue proceed from Blighs Road westwards as far as funds permit
2. That \$900 be reallocated to enable the completion of the work from the unexpended portion of the Neighbourhood Week budget ex 1998/99 discretionary funds
