

7. **GREERS ROAD - PROPOSED PEDESTRIAN REFUGE**

RR 9759

The Board was advised of correspondence having been received from Burnside High and Christ the King Schools requesting that the proposed pedestrian refuge in Greers Road in the vicinity of the two schools not proceed as they both believed it was not needed.

This feedback arose from a decision made by the previous Board which allocated funds for the possible provision of a third pedestrian refuge in Greers Road and followed the installation of a painted median and two other pedestrian refuges last year between Memorial Avenue and Guildford Street.

Having been appraised of the schools views, the Board was at this stage reluctant to reallocate the funds to another project until the matter was further investigated and consultation continued with the schools and the local community including the Aurora Centre Trust.

The Board therefore **decided** that the funding (\$6,000) for a third pedestrian refuge in Greers Road should be carried forward to the next financial year and that in the interim, further investigation and consultation be undertaken with the local community and schools.
