

11. CHARLESWORTH RESERVE: DEEDS INDEX LAND

The Board considered a report seeking a Council decision on a proposal for acquisition of land currently held in the Deeds Index and a grant of access to Humphreys Drive.

The Board considered the proposed recommendation to the City Services Committee “that the Council appoint a sub-committee comprising the chairmen of the City Services Committee, Parks and Recreation Committee and Hagley/Ferrymead Community Board to discuss with Mr Sloan whether his objectives and the Council’s objectives can both be achieved; and only in the event that these discussions are unsuccessful, that the Council pursue the adverse possession claim.”

The Board **decided** to advise the City Services Committee that it supports this proposed recommendation with the deletion of the word “only” in the second last line of the recommendation.
