

21. PROPOSED GRAFFITI ART MURAL – LINWOOD PARK TOILET BUILDING

The Board considered a report providing an update on the proposed graffiti art mural on the Linwood Park toilet building.

In conjunction with consideration of this report, the Board heard submissions from Mrs Carole Greenfield on behalf of the Linwood Neighbourhood Committee under the provisions for residents' groups to address the Board by appointment.

The report noted an Information Seminar is to be held on 26 July 1999 to inform interested parties of the issues involved with graffiti and to consider the views of key stakeholder groups in Christchurch. Following this, a metropolitan strategy is to be developed to address this issue, including methods of managing the issues brought to light by the 'bomb sites' pilot project. The report included a recommendation seeking funding of \$6,000 from the Board's 1999/2000 discretionary fund to implement the proposed graffiti art mural on the Linwood Park toilet building.

The Board **resolved:**

1. To delay commencement of the proposed graffiti art mural on the Linwood Park toilet building until the completion of a metropolitan strategy to address and manage the issue of graffiti in Christchurch.
2. That the request for funding of \$6,000 for this project be deferred until this metropolitan strategy has been formulated.
