

## 9. ARBOR DAY PROGRAMMES

The Community Board considered a report seeking a financial contribution to the staging of Arbor Day (5 June).

The programme for this year was based upon offering schools the opportunity of plants for their planting.

The Board **decided** to support the programme with an amount of \$2,000 approved to provide for trees for Arbor Day plantings in school grounds (within its area of responsibility); also that the Parks Manager be advised that the issue of Arbor Day funding is a metropolitan one, and should be funded accordingly in the future.

(Bob Shearing wished to have his vote against these decisions recorded.)
