

17. SPENCER PARK INFORMATION PANEL

As requested at the 3 March 1999 meeting, the Coast Care Coordinator reported with more information about the proposed information sign board for Spencer Park. The purpose of the sign would be to educate people in order to prevent damage occurring to the wetland margin. Examples of similar signs were displayed at the meeting.

The Board **resolved** to allocate \$5,000 from its 1998/99 Discretionary Funds for the information sign board at Spencer Park.
