

6. HEATHCOTE RIVER TRIAL ROAD EDGE TREATMENT

RR 9720

Paul Dickson of Water Services Unit, spoke to his report regarding the proposed road edge treatment trial adjacent to the Heathcote River on Eastern Terrace between Tennyson Street and Waltham Road.

The Board was asked to rescind its resolution of 13 April 1999:

“That the trial be undertaken on a section without any road humps (in particular Aynsley Terrace, Fifield Terrace, Fifield and Riverlaw Terraces) to see if speed reduction can also be achieved.”

The motion was lost, and the Board **resolved** to uphold its decision of 13 April 1999, as detailed above.
