

2. CYCLE LANE PROJECT – CLYDE ROAD

RR 10930

The Board considered a report from the Cycle Planning Officer setting out details of a proposal to mark cycle lanes on Clyde Road and for the matter to proceed to the public consultation phase.

The provision of red asphalt treatment at the Creyke/Clyde/Kotare intersection to better delineate the location and positioning of the cycle lane was requested by the Board.

The Board **decided** to support the Clyde Road cycle lane project for public consultation and report back.
