

3. REYNOLDS AVENUE – PROPOSED TRAFFIC CALMING

RR 10935

In a report from the Area Engineer, the Board was asked to approve for public circulation a proposal to provide traffic calming in Reynolds Avenue and also to reallocate residual funding to enable the completion of a footpath in Wairakei Road.

The Board **decided**:

1. That the proposal for an eight metre wide threshold with carpet roses and a tree each side to be constructed on Reynolds Avenue at its intersection with Greers Road, and the provision of three low profile speed humps along the length of Reynolds Avenue, be circulated for public comment.
2. That the Board's \$20,000 allocation ex Project Funding be transferred to enable the footpath in Wairakei Road (Stanleys Road to Orchard Road) to be extended.
