

13. REMOVAL OF BUS STOP – LINWOOD AVENUE

The Board considered a report submitted by Charles Manning expressing his concerns that residents in the vicinity of Wanstead Place and Shire Lane had lost their bus stop and pointing out that this loss particularly affects the residents of the Linrose Retirement Village, who no longer have convenient access to a bus stop.

A further report on this matter was provided to the Board by the Area Engineer, giving the background to this matter and to the bus route changes implemented by the Canterbury Regional Council.

The Board **resolved** to convey both of these reports to the City Services Committee and to ask this Committee if it could take up this matter with the Canterbury Regional Council on behalf of the affected residents.
