

3. BOTTLE LAKE

RR 10384

The Water Services Manager tabled an updated report to that included in the agenda, which detailed the decision of the Burwood/Pegasus Community Board to explore options for Bottle Lake's possible restoration, and to seek the support of the Joint Committee for joint action to prepare a concept plan for the lake.

Chrissie Williams, Chairman of the working party established by the Burwood/Pegasus Community Board, advised members that the working party had held three meetings to determine:

- Terms of reference
- Vision
- What the issues are

The Committee **decided** that the report lie on the table until further information, including options, is available and that such information be the subject of a Joint Committee regular seminar meeting to be held in the new year.
