

28. SOUTHERN ARTERIAL

RR 10797

The Committee received a report on the current situation regarding the Southern Arterial. The report was also submitted to the Riccarton/Wigram Community Board. In reporting City Plan issues the City Streets Manager noted that the Council meeting in September resolved that the Southern Arterial designation be referred back to the City Plan Hearings Committee for a further hearing. City Services Committee members have requested that staff liaise with Transit New Zealand to facilitate an early hearing of the issue.
