

## 15. GENERATIONS IN THE PARK

The Board considered a report outlining a proposal for a “meeting of the generations”, an initiative proposed by the Mayor. The intention was that an event be held in a park in each Community Board area to provide a place for people from various generations to meet. The report sought the support of the Board for this proposal.

The Board **decided** to defer this proposal for consideration at a later meeting when John Freeman, the Board’s representative on the Working Party considering this matter has returned.
