

23. SURPLUS LEGAL ROAD – ISABELLA PLACE

The Board considered a report which was to be referred to the City Services Committee, recommending the stopping of a portion of Isabella Place.

The Board expressed concerns about the proposed disposal of the surplus roading land, once road stopping procedures had been completed.

The Board **resolved:**

1. That, when a report on this matter comes back to the Community Board and to the City Services Committee, it include all options for the future use of the surplus land, including potential alternative uses for the land such as its development as a reserve.
2. That a letter be forwarded to the Charleston Neighbourhood Committee advising of this resolution and inviting their comments.
