

7. AVEBURY HOUSE – RESEARCH OUTCOMES

The Community Development Adviser, Linwood, reported recommendations for the future use of Avebury House to the Board and asked for comments to be forwarded to the Projects and Property Committee. A presentation was made by Sue Dewe, who answered questions from members.

The suggestion was made that a combined use could be made of the property – use by community groups, with part of the house being used for commercial purposes. It was agreed that the costs associated with the project were of concern.

The Board **decided** to support the preferred option (Option 4 in the report) in principle, but that further consideration be given to it when a request was received to meet any costs involved. This recommendation to be conveyed to the Projects and Property Committee.
