

## 9. GENERATIONS IN THE PARK

The Community Secretary, Shirley, reported on the concept of the 'Generations in the Park' project and requested support for an event in a park in each Board area in the 2000/01 financial year. Each event was expected to cost \$5,000-\$10,000 and funding would be sought from Board discretionary funding. The Board **decided** to support the holding of a 'Through the Decades' event in principle, but that any application for funding would be considered when a proposal was presented to the Board.
