

### **32. ST ALBANS EDU-CARE CENTRE**

A request for funding to upgrade the St Albans Edu-care Centre premises in Thames Street was reported by the Community Advocate. This would enable the Centre to meet Ministry regulations and Health and Safety requirements, at a cost of \$17,529.

The Centre also wished to build a relocatable staff room/storage area on the site and the Board had previously approved a grant of \$7,500 in 1998 towards this.

**The Board resolved:**

1. To reallocate its grant of \$7,500 from Project Funds towards upgrading the St Albans Edu-care Centre to meet the Ministry of Education and Crown Public Health standards.
2. That the provision of a relocatable building for staff room/storage be reconsidered following completion of the needs analysis currently being carried out.
3. That a Committee comprising the Chairperson, Anne Carroll, Sally Thompson and Steve Wright be established to consider further funding requests from the Centre.
