

**22. NORTHERN ROADING OPTIONS SCOPING STUDY –  
UPDATE REPORT**

RR 10562

A report from the Senior Transport Planner updated the Committee on progress of the North Christchurch Roothing Options Scoping Study. Following discussion the Committee agreed by consensus that an interim report be available during February 2000 which would identify any possible measures which could be budgeted for in the next financial year, without closing off any options. The Committee considered it appropriate to adopt a target of April 2000 for the final scoping study which would allow a month for the tendering process and then for the public consultation process to be completed by November 2000.

It was **decided** that a report be brought back to the next meeting to finalise the timeline for the scoping study in accordance with the dates indicated by the Committee.
