

## 2. MANSFIELD AVENUE – PROPOSED THRESHOLD

RR 10526

In a report from the Area Engineer, the Board was asked to consider deferring the proposed entrance treatment to Mansfield Avenue at the Papanui Road intersection until the kerb and channel in the Avenue was renewed in several years time.

The Board was also informed of the proposed enhancements on Papanui Road through the Merivale Shopping Centre including a minor kerb extension on the south side of Mansfield Avenue at its intersection with Papanui Road.

The Board **decided**:

1. That the construction of a threshold in Mansfield Avenue at its intersection with Papanui Road be deferred until the kerb and channel is renewed in Mansfield Avenue.
2. That the City Streets Unit be requested to consider alternative uses for the funding not now required for Mansfield Avenue.
3. That the information on the proposed enhancements to the Merivale Shopping Centre be received.
