

12. DRAFT PARKS AREA PLAN – SPREYDON WARD

RR 10575

The Parks Manager submitted a report introducing the draft Parks Area Plan for the Spreydon Ward. The plan is a pilot for a series of at least six similar plans the Parks Unit proposes to prepare over the next two years for separate local areas across the city. The plans will provide information on the parks in each area, the cost of providing this service, and identify the issues and needs associated with each park.

The Committee **decided** that the draft Parks Area Plan for the Spreydon Ward be released for public comment, with comments to be received by 26 November 1999.
