

12. DEPUTATION BY APPOINTMENT

Use of Boardroom for FAMIS Training

Simon Markham, Director of Information, addressed the Board with a request for approval of the use of the Boardroom at the Beckenham Service Centre for the period from late October 1999 through to the end of March 2000. The room would be required for the purpose of computer training in connection with the Financial and Management Information Solution (FAMIS) project.

The Board **decided** it was not favourably disposed to the proposal because of the impact on community operations, but if it becomes a necessity, then the Board would reluctantly accept the proposal.
