

3. CORRESPONDENCE

3.1 FIBRE-OPTIC CABLE

A letter was received from Graeme Roberts, Beca Carter Hollings & Ferner Ltd, regarding a proposal from Saturn Communications to install a submarine telecommunications cable into Christchurch via North New Brighton. The Board **decided** to recommend to the Saturn Cable Television Subcommittee that approval for the submarine fibre optic cable be subject to:

1. Full restoration of the area through which the underground cable is to pass in the coastal marine area.
2. Placing the cable underground in areas:
 - (a) That already have underground reticulation;
 - (b) Where underground reticulation is introduced; and,
 - (c) Of environmental sensitivity.
