

7. SUNDIAL AT NEW BRIGHTON

The Parks Manager reported, seeking approval to locate the New Brighton Residents' Association's sundial in front of the pier building until the foreshore park to the north of the pier had been completed. Because of a shortage of funding this work may still be some time away.

Following consultation with the Burwood/Pegasus Community Board the Committee **decided**:

1. That permission be given for the New Brighton Residents' Association to locate the sundial in front of the pier building on the northern side.
2. That the landscape plan for the foreshore be developed with projects identified and costed to allow community groups to become involved in funding for these projects.
