

## **10. CYCLE PROJECT PLANNING FOR SHIRLEY/PAPANUI AREA**

A report by the Cycle Planning Officer advised the range of cycle projects proposed for the Board's area. A package of information had been supplied to members identifying possible routes and indicating the planning process used.

The Board **decided:**

1. That the information be received.
2. That Papanui Road and the Papanui High School/Casebrook cycleway works be treated with urgency and brought forward on the programme.
3. That a meeting be held with the Fendalton/Waimairi Community Board to discuss the shared intersections, Papanui Road and the cycleways.
