5.5 RELOCATION OF BUS STOP – 272 STANMORE ROAD

Mr Bruce Pengelly addressed the Board seeking the relocation of a bus stop which is situated immediately outside his property at 272 Stanmore Road, a property which he is redeveloping. His concern was that the bus stop covers the entranceway/driveway into this property. Mr Pengelly suggested that the bus stop could be relocated outside one or other of the adjoining business properties, one of which also has an existing verandah which could be advantageous to waiting bus passengers.

The Board asked the Area Engineer to investigate these concerns and to bring a report to the Board.
