

#### 14. STREET “BURN OUT” PROBLEM

Councillor Ingrid Stonhill reported verbally on the meetings held to date to discuss the above topic. She advised that as a consequence of the recent legal action taken by the Police in respect to an accident at a motor sport event in Queenstown, in which volunteers had been charged by the Police, the possibility of a burn out pad being established at Ruapuna was not now considered to be likely.

An Auckland company was, however, organising and arranging “burn outs” on land owned by the Manakau City Council and the company charged for entrance and covered public liability.

It was agreed that Councillor Stonhill and a staff member from the City Streets Unit visit Auckland to view the burn out pad and discuss the management arrangements for this with the organisers and report back in due course.

**Recommendation:** That Councillor Stonhill visit Auckland to view the Manakau City “burn out”.
