

13. WATER RELATED SERVICES ALTERATION BYLAW 2001

Officer responsible Legal Services Manager	Author Peter Mitchell, DDI 371-1549
Corporate Plan Output: Legal Advice	

The purpose of this report is to advise the Council of a need to alter this bylaw to reflect changed job titles as a result of the recent management changes within the City Council.

There is also change to the definition of ordinary supply of water, and introduce a new definition of extraordinary supply, to better reflect the Council's current practice in charging for the consumption of water. The changes in the definition do not result in any alteration to the Council's current policy that private residential consumers not be charged for the supply of water. There are also changes to reflect the revocation of the Drainage and Plumbing Regulations 1978.

Recommendation: That the Council commence Special Order procedures to make the Christchurch City Water Related Services Alteration Bylaw 2001 (attached).
