

12. NORTH HAGLEY PARK/NORTHERN BOUNDARY PATHWAY DEVELOPMENT

The City Streets Manager sought approval to lay an all-weather pathway along the northern boundary of Hagley Park parallel to Park Avenue from the Fendalton Road/Harper Avenue corner to the Carlton Mill/Harper Avenue corner of North Hagley Park. The pathway will provide cyclists currently using Harper Avenue with the opportunity to use an off-road path. It will improve the safety access and flow of cyclists and will provide a major enhancement for recreational users of North Hagley Park.

The Committee **decided** that the proposal to install a pathway along the northern boundary of North Hagley Park be approved.
