

**1. DEPUTATION: CYCLEWAY WORKING PARTY**

Mr Jean Paul Thull and Mr Paul de Spa, on behalf of the Christchurch/Lincoln/Little River Cycleway Working Party, gave a short presentation on this proposal.

The Working Party is looking at the feasibility of a dedicated cycle route which would take in historical sites and other recreational 'loop' routes as well as following the former railway line to Little River. Some of the proposed routes are through private rural land and Crown land which will require appropriate negotiations.

The Board was very supportive of the concept and offered to assist in any community consultation that the Working Party considered appropriate.
