

16. THORRINGTON SCHOOL FUNDING REQUEST

The Board considered a report summarising Thorrington School's previous funding application (Community Affairs Committee, Tuesday 17 October), and was asked to consider links to Council policies and strategies and Board objectives, in order to make a decision regarding a recommendation in relation to Board Discretionary funding for this project.

The Board **resolved** to decline consideration of the school's request for funding until it could provide information pertaining to a wider community need for such a facility.

(Barry Corbett requested his vote against this resolution be recorded).
