

8. TRAVIS ROAD CYCLEPATH

The City Streets Transport Planner - Cycling was in attendance to update the Board on progress and design of the pedestrian/cyclepath along Travis Road. The Board **decided** to:

1. Support the development of the rural section of the pathway.
2. Support the City Streets Unit undertaking consultation for the residential part of the pathway and the suggested changes to improve safety for all road users on Travis Road.
3. Continue to support the inclusion of a cyclepath on the north side of Travis Road, and that Travis Wetland planning does not preclude this.
4. Request a report on the implications of the proposed cyclepath to Parnwell Avenue and Bassett Street traffic movements.
