

## **21. BRIDGE 2000 NORTH HAGLEY PARK**

The Committee had sought a report on the proposal to build the footbridge across the Avon River opposite Dorset Street. This is a millennium project promoted by the Art 2000 Advisory Group. The City Services Committee raised matters of pedestrian and traffic safety and had sought the relocation of the bridge to a site nearer Carlton Mill Road or Kilmore Street.

It was **resolved** to recommend to the Parks and Recreation Committee that a subcommittee of two representatives of the City Services Committee (Councillors Denis O'Rourke and Sally Thompson), two representatives of the Parks and Recreation Committee and two representatives of the Turning Point 2000 Committee meet to discuss the issues of concern and to make a recommendation to the Council on 24 February 2000.
