

14. CYCLE SAFE

The Committee received a report on the cycle safe programme. The Council is a major funding provider of the programme. The programme consists of five modules and requires pupils to be available four consecutive mornings or afternoons to complete them. The five modules are:

1. Cycle maintenance, clothing and bike check
2. Riding skills
3. Road rules and simulations
4. Practical traffic skills
5. Practical road test

An invitation was extended to all Councillors to view the cycle safe training session at Marshland School, 329 Prestons Road during the first term of 2000. Committee members accepted the invitation and will attend at 9.00am on Thursday 23 March 2000.
