

#### **4. NATIVE PLANT DESIGN GUIDE**

A report from the Community Advocate backgrounded the presentation made by Di Lucas to the Shirley/Papanui Community Board, seeking funds for a proposal to produce a native plant design guide.

The Committee **resolved** that a Native Plant Design Guide Subcommittee be formed, comprising Councillors Evans and Buck, to work with officers and other appropriate organisations on establishing how the native plant design guide booklet can be produced and made available to the public.

The Subcommittee is to report back its finding to the Environment Committee.

Councillors Corbett, Harrow and Wells voted against the motion.
